

## **GLOBE Observer Connect: Bringing Your Observations to Meteorologists** (March 19, 2026).

Useful links referred to during the webinar.

### 1. **Meteorological Assimilation Data Ingest System**

- Network name: NGLO
- <https://madis-data.ncep.noaa.gov/>
- <https://madis-data.ncep.noaa.gov/madisPublic1/data/stations/UTMESNETStation.txt>

### 2. The **Synoptic Data Viewer** is the simplest way for anyone to view the NASA GLOBE network:

- <https://viewer.synopticdata.com/>

Additional access through the Data Download tool or Synoptic API

- <https://synopticdata.com/weatherapi/>
- <https://download.synopticdata.com/>

### 3. **GLOBE Program**

- <https://www.globe.gov/>

### **Contact details:**

- Brendan O'Connor – GLOBE Program Support Scientist
